Regional, sub-regional and local gross value added

Regional GVA (NUTS1)

London's gross value added (GVA) per head of population was 36 per cent above the average for the United Kingdom (UK) while Wales was 22 per cent below in 2005.

The 2005 headline estimates also show total GVA, before allowing for inflation, has been increasing in all UK regions. The highest growth was in the North East, East Midlands and London (4.4 per cent) and the lowest in the South East (3.5 per cent). Overall, UK growth in 2005 was 3.9 per cent. The NUTS1 figures for the nine English government office regions and devolved countries of the UK are given in the table below.

Regional GVA^{1,2} 2005³

Region	Total (£bn)	Share of UK (%)	Growth on 2004 (%)	Per head (£)	Per head index (UK=100)
United Kingdom⁴	1,064.3	100	3.9	17 700	100
North East	35.9	3.4	4.4	14 000	79
North West	106.1	10.0	3.7	15 500	88
Yorkshire and The Humber	78.1	7.3	3.7	15 400	87
East Midlands	70.8	6.7	4.4	16 500	93
West Midlands	84.8	8.0	3.8	15 800	89
East of England	104.9	9.9	3.7	18 900	107
London	181.0	17.0	4.4	24 100	136
South East	166.3	15.6	3.5	20 400	115
South West	84.6	7.9	4.0	16 700	94
England	912.7	85.7	3.9	18 100	102
Wales	40.9	3.8	3.9	13 800	78
Scotland	86.3	8.1	4.1	16 900	96
Northern Ireland	24.5	2.3	3.8	14 200	80

¹ GVA at current basic prices on residence basis

² Figures may not sum due to rounding in totals, per head (£) figures are rounded to the nearest hundred pounds

³ 2005 estimates are provisional

⁴ Excluding statistical discrepancy and Extra-regio (off-shore contribution to GVA that cannot be assigned to any region).

Sub-regional GVA (NUTS2)

Inner London had the largest GVA per head (£42,400) for 2004, the latest year for which estimates are available, within the 37 NUTS2 areas of the United Kingdom (mainly groups of counties); Cornwall and the Isles of Scilly had the lowest (£11,100). These figures compare to the UK average (excluding Extra-regio) of £17,100.

NUTS2 Regions: Top five and bottom five GVA^{1,2} per head, 2004

Region	Share of UK (%)	Growth on 2003 (%)	Per head (£) ³	Per head index (UK=100)
United Kingdom	100	6.0	17 100	100
Top five GVA per head				
Inner London	12.1	6.7	42 400	248
Berkshire, Bucks & Oxon.	5.0	6.2	24 000	140
North Eastern Scotland	1.1	4.7	21 600	126
Gloucester-, Wiltshire & North Somerset	4.3	6.9	20 000	117
Bedford- & Hertfordshire	3.0	6.0	19 300	113

³ Per head figures are rounded to the nearest hundred pounds.

Local GVA (NUTS3)

The 2004 estimates for the 133 NUTS3 areas (principally individual counties and unitary authorities) of the UK, show Inner London West had the largest GVA per head (£72,500), and the Isle of Anglesey had the smallest (£9,000).

NUTS3 Regions: Top five and bottom five GVA^{1,2} per head, 2004

Region	Share of UK (%)	Growth on 2003 (%)	Per head (£) ³	Per head index (UK=100)

³ Per head figures are rounded to the nearest hundred pounds.

Regional, sub-regional and local GVA estimates

GVA estimates are available for 12 regions and countries of the UK plus Extra-regio (off-shore GVA that cannot be assigned to any region - see background note 6), 37 sub-regions (NUTS2) and 133 local areas (NUTS3). These estimates are consistent with Blue Book 2006.

Regional GVA estimates (NUTS1) for 2005 are being released for the first time along with revisions for the period 1989 to 2004. These estimates update those published in December 2005.

At the more detailed level of geography (NUTS2 and NUTS3) estimates for 2004 are being released for the first time along with revisions for the period 1995 to 2003 and update estimates published in December 2005.

Regional GVA estimates (1989 to 2005)

Growth rates of total GVA

Total GVA has been increasing in all UK regions. At current prices, the North East, East Midlands and London experienced the highest growth in total GVA between 2004 and 2005 (4.4 per cent). Most regions experienced a growth rate similar to the UK average of 3.9 per cent. Growth in the South East was the lowest (3.5 per cent).

GVA per head of population

GVA per head of population for the UK as a whole, excluding Extra-regio, was £17,700 in 2005. London had the highest GVA per head (£24,100). The South East and the East of England were also above the UK average (£20,400 and £18,900 respectively). All other regions had a GVA per head value below the UK average. Wales had the lowest (£13,800) followed by the North East (£14,000), however, GVA per head has been increasing in all regions.

Shares of GVA

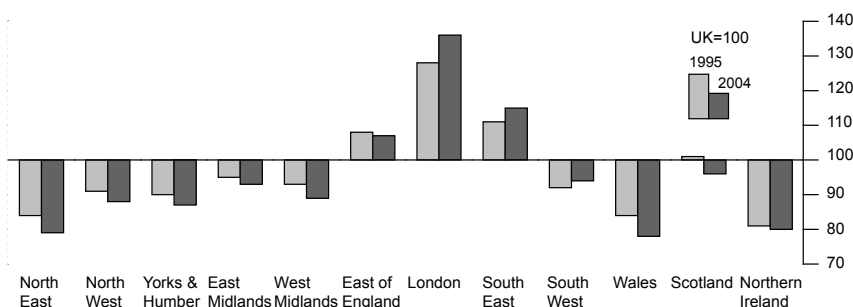

London (17.0 per cent) and the South East (15.6 per cent) had the largest share of total UK GVA in 2005. London's and the South East's share of UK GVA has increased since 1995 when it accounted for 15.2 per cent and 14.9 per cent respectively. Northern Ireland (2.3 per cent) and the North East (3.4 per cent) had the smallest share of UK GVA in 2005.

GVA per head indices

London had the highest regional GVA per head of population index in 2005 (136, where UK=100) – more than a third greater than the UK average and 8 index points above the 1995 estimate (128).

Wales had the lowest index (78), 22 index points below the UK average.

Per head indices across NUTS1 regions

Sub-regional and local GVA estimates (1995 to 2004)

Growth rates of total GVA

Total GVA has been increasing in all UK NUTS2 (37 sub-regions) and NUTS3 (133 districts and unitary authorities) areas. Within NUTS2 areas, growth in total GVA between 2003 and 2004 was highest in Leicestershire, Rutland and Northamptonshire (7.1 per cent) and Essex (7.0 per cent). Within NUTS3, high growth areas included South Teesside, Halton and Warrington, and Nottingham (8.0 per cent).

The NUTS2 areas with the lowest growth between 2003 and 2004 in total GVA were Surrey, East and West Sussex, North Eastern Scotland and Cheshire (4.7 per cent). NUTS3 areas with the lowest growth between 2003 and 2004 included Cheshire CC (3.1 per cent) and Dumfries and Galloway (3.5 per cent).

GVA per head of population

The NUTS2 areas with the largest GVA per head of population in 2004 were Inner London (£42,400), Berkshire, Buckinghamshire & Oxfordshire (£24,000) and North Eastern Scotland (£21,600). The NUTS3 areas with the largest GVA per head in 2004 were Inner London – West (£72,500), Edinburgh (£27,600) and Berkshire (£27,500). These estimates compare to the UK average GVA per head of £17,100 in 2004.

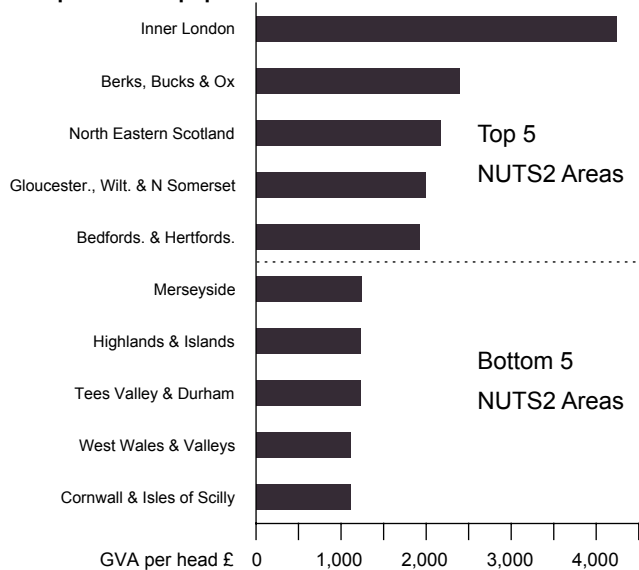

Within NUTS2, the areas with the smallest GVA per head were Cornwall & Isles of Scilly (£11,100), West Wales & the Valleys (£11,100), Tees Valley & Durham (£12,200) and the Highlands and Islands (£12,300). The Isles of Anglesey (£9,000), Gwent Valleys (£9,800) and Wirral (£9,900) were the NUTS3 areas with the smallest GVA per head in 2004.

GVA per head indices

The NUTS2 area of Inner London had the largest GVA per head index in 2004 (248) showing GVA per head to be nearly two and half times greater than the UK average. Inner London – West had the largest GVA per head index within NUTS3 areas (424).

The GVA per head index for the NUTS2 area Cornwall & the Isles of Scilly was 65 by contrast while the NUTS3 area Isle of Anglesey (53) was little over half of the UK average.

NUTS 2 areas with the highest and lowest GVA per head of population

Variation within NUTS regions

Within the 12 regions and countries of the United Kingdom (NUTS1), the GVA of the 37 sub-regions (NUTS2) and 133 districts and unitary authorities (NUTS3) areas can vary considerably. For example, the GVA per head of the NUTS1 region of London in 2004 was £23,300; the GVA per head for the NUTS2 areas Inner London was £42,400 and Outer London, £15,800. While the GVA per head for NUTS3 Inner London – West and Outer London – East and North East were £72,500 and £11,400 respectively.

Over time differences in regional economic activity can become apparent. For example, in the East of England GVA per head on a workplace basis was £10,400 in 1995 and £16,400 in 2004. The component NUTS2 sub-regions of East Anglia, Bedfordshire and Hertfordshire, and Essex have GVA per head values of £10,500, £11,600 and £9,100 respectively in 1995. All these are within 12 per cent of the NUTS1 value. In 2004 these had changed to East Anglia £15,700, Bedfordshire and Hertfordshire £19,300 and Essex £14,600. Bedfordshire and Hertfordshire GVA per head is 33 per cent greater than Essex in 2004 compared to 28 per cent in 1995.

Looking at the NUTS3 areas within Bedfordshire and Hertfordshire the divergence becomes more apparent. In 1995 the three NUTS3 areas that make up Bedfordshire and Hertfordshire had similar GVA per head values: £11,200 in Luton, £10,900 in Bedfordshire CC and £12,000 in Hertfordshire. By 2004 the spread of GVA per head had changed substantially, with Luton (£17,000) 12 per cent below the NUTS2 value, Bedfordshire (£14,800) 23 per cent below the NUTS2 value and Hertfordshire (£21,400) 11 per cent higher than the NUTS2 value.

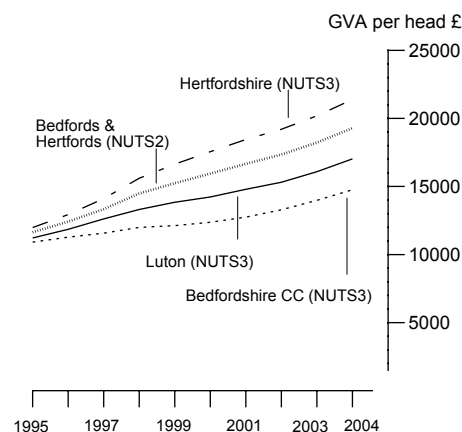

GVA estimates can be found in the tables attached. For more on regional diversity see annex A Diversity of the NUTS1 regions.

Revisions

Revisions to regional GVA estimates in this release cover the period 1989 to 2004. Estimates at lower geographical level are being revised for the period 1995 to 2003 with the starting point of the NUTS2 and NUTS3 time series being 1995. The main reasons for revisions are:

- Revisions to the UK national accounts (Blue Book 2006) – main impact of the new national controls is an increase of 15.9 billion to financial intermediation (banking, etc.) in 2004 and to a lesser extent to previous years. This revision particularly affected London with the largest revision of 6.5 billion in 2004.
- Revised data from Her Majesty's Revenue and Customs (HMRC) for use in the calculation of Mixed Income (Sole Traders), Partnerships income and Compensation of employees became available. Income data of Sole Traders and Partnerships have been revised back to 2001/02, with data from 100 per cent extract and replacing results from a 10 per cent sample. Data from pay-as-you-earn (PAYE), used in the compilation of compensation of employees estimates, have been revised for 2003/04 and new estimates supplied for 2004/05.

NUTS3 areas within Bedfordshire and Hertfordshire

Final estimates for 2004 have become available from the Annual Survey of Hours and Earnings (ASHE), Annual Business Inquiry, and other data sets.

Future work plans

ONS plans to publish estimates of regional GVA for 1989 to 2006, and sub-regional and local GVA for 1995 to 2005 in December 2007. The publication of regional household income estimates for the period 1995 to 2005 is currently planned for March 2007.

Further detail

The full range of GVA estimates published today can be found on the National Statistics website:

<http://www.statistics.gov.uk/statbase/Product.asp?vlnk=14650>.

Annex A

Diversity of the NUTS1 regions

Scotland, Wales, Northern Ireland and the regions of England are all different in character, industrial structure and economic performance. The following table shows some of the differences. Scotland has the largest area, but a small population; London has by far the smallest area, but the second largest percentage of the population - over 12 per cent. (The South East has the largest population – nearly 14 per cent.) At the other extreme, Northern Ireland has the smallest population: 2.9 per cent of the UK total. These large variations in the regions' populations are reflected in the size of regional GVA and incomes.

The wide variation in the size of the regions makes it difficult to compare the regions' economic performance using cash totals. Comparisons are therefore usually expressed in terms of amounts per head of the population. However, it is important to note that the growth in totals may be quite different to the growth per head in regions where the population has increased or decreased. Furthermore, the level per head is determined both by the average amount of cash of the working population and by the proportion of dependants. Northern Ireland households have a high proportion of children (24 per cent of the population were aged 16 or under in 2005 compared with 20 to 21 per cent in other regions). This will tend to depress amounts per head. Ideally the age structure of the population should, therefore, be taken into account when comparing figures on a per head basis.

⁴ Regional Household income estimates as published by ONS on 9 May 2006

BACKGROUND NOTES

1. The NUTS1 GVA estimates presented here are on a residence basis. This means that earnings of individuals are allocated to the region in which they live. Regional workplace GVA estimates have also been calculated and are released today. NUTS2 and NUTS3 GVA estimates are on a workplace basis, and consistent with estimates of workplace-based NUTS1 GVA estimates released today. This complies with the European System of Economic Accounts 1995 (ESA95).
2. Estimates are at current basic prices and do not allow for changes in prices over time (inflation) or differences in regional price levels (purchasing power). Estimates presented in this First Release are rounded to the nearest hundred pounds.
3. The headline GVA series had been calculated using a five year moving average technique. These adjusted series remove some year to year volatility in the unadjusted series. The unadjusted series are also provided for information on the National Statistics website (<http://www.statistics.gov.uk/statbase/Product.asp?vlnk=14650>).
4. Unadjusted GVA estimates are to be supplied to Eurostat as per requirements under the European System of Accounts 1995.
5. The Nomenclature of Units for Territorial Statistics (NUTS) provides a single uniform breakdown for the production of regional statistics for the European Union. There are three levels of NUTS in the UK:
NUTS1: Government Office Regions and Wales, Scotland, Northern Ireland.
NUTS2: 37 areas – mainly groups of counties and unitary authorities; can be referred to as sub-regions
NUTS3: 133 areas – principally individual counties and unitary authorities; also known as local areas.
Some areas appear at more than one level, for example Northern Ireland appears at NUTS1 and NUTS2 level.
6. The contribution to GVA of UK embassies abroad and UK forces stationed overseas is included in Extra-regio, along with the elements relating to activities taking place on the continental shelf. As these cannot be assigned to specific regions they are assigned as “Extra-regio GVA”.
7. As with the national accounts, regional, sub-regional and local GVA estimates are calculated as reliably as possible. There is no easy way to measure the reliability of the estimates but ONS carries out consistency checks on data inputs, apply methods consistently and make use of local knowledge for England, Scotland, Wales and Northern Ireland. The estimates are partly based on sample surveys

and the quality of the results therefore varies according to sample size. This means that the results for smaller regions are subject to a greater degree of uncertainty than those for larger regions.

8. For up to date details of the availability of sub-national economic statistics please contact: Customer Contact Centre, Office for National Statistics, 1 Drummond Gate, London SW1V 2QQ, tel: 0845 601 3034, e-mail: info@statistics.gov.uk.
9. Details of the policy governing the release of new data are available from the press office.
10. **National Statistics** are produced to high professional standards set out in the National Statistics Code of Practice. They undergo regular quality assurance reviews to ensure that they meet customer needs. They are produced free from any political interference.

1 The headline regional GVA series for this publication have been calculated using a five-period moving average. 6 Including taxes on production.

2 Estimates of regional GVA in this table are on a residence basis, where the income of commuters is allocated to where they live rather than their place of work.

3 Components may not sum to totals as a result of rounding.

4 Provisional

5 The GVA for Extra-Regio comprises compensation of employees and gross operating surplus which cannot be assigned to regions.

NUTS1:3 Headline¹ Gross Value Added^{2,3} by industry groups, current basic prices by region

1 The headline regional GVA series for this publication have been calculated using a five-period moving average.

2 Estimates of regional GVA in this table are on a residence basis, where the income of commuters is allocated to where they live rather than their place of work.

3 Components may not sum due to rounding.

4 Public administration, national defence and compulsory social security.

5 Financial Intermediation Services Indirectly Measured.

NUTS1:3

1 The headline GVA series for this publication have been calculated using a five-period moving average.

2 Estimates of workplace based GVA allocate income to the region in which commuters work.

3 The GVA for Extra-Regio comprises compensation of employees and gross operating surplus which cannot be assigned to regions.

NUTS2:3

Headline¹ gross value added (GVA)² per head indices by NUTS2 area at current basic prices

1 The headline GVA series for this publication have been calculated using a five-period moving average.

2 Estimates of workplace based GVA allocate income to the region in which commuters work.

3 Components may not sum to totals as a result of rounding.

4 The GVA for Extra-Regio comprises compensation of employees and gross operating surplus which cannot be assigned to regions.
